Name: Signed:

Company:

TERMS & CONDITIONS

Cancellations made more than 21 days prior to the course start date – no charge; cancellations made between 14 – 21 days prior to the start date – 50%*; cancellations made less than 14 days before the course start date –100%* (* Unless the place can be filled, in which case there will be no charge). Bookings can be made after the closing date, but the full charge will be made to the company for each place, with no opportunity for cancellation without incurring the full cost. If, for any reason beyond our control, one of the training providers cancels or postpones all or any part of a course, the Group will not be liable for any costs incurred by the client as a result of the cancellation or postponement. Where possible, a mutually agreeable date will be arranged to run or complete the course.

Asbestos Awareness

Further Information

Course Aims

This half-day course is fully compliant with Regulation 10 of the Control of Asbestos Regulations. It is estimated that 1.8 million people are disturbing asbestos regularly and most aren't even aware of it.

This course will make people understand what asbestos is and the typical locations where it is found and how to work safely to avoid exposure.

The objective of the course is to enable delegates to, by the end of the course:

- Understand what Asbestos is.
- The different types of Asbestos
- Procedures to follow
- How to avoid the risks

Who Should Attend

The course is designed for personnel that undertake maintenance, refurbishment or building work and will appeal to general maintenance staff, electricians, plumbers, gas fitters, painters and decorators, joiners, plasterers, demolition workers, construction workers, roofers, heating and ventilation engineers, telecommunication engineers, burglar, fire alarm installers, architects, building surveyors and other such professionals.

Course Content

- What is asbestos – the main properties of asbestos and its effects on health
- The types and likely occurrences of asbestos and asbestos containing material in premises and plant
- General procedures to be followed in the event of release of asbestos
- How to avoid the risks from asbestos

Training Methods

Classroom Based and Practical exercises and group participation.

Additional Information

The course can be developed and adapted to refer to or include specific areas of the client's operations, particularly focussing on issues that are present and utilising the client's own asbestos policies and procedures.
