Information

- A variety of CITB-ConstructionSkills grants are available as a contribution towards the cost of training and developing your workforce:
Training Plan Claim – £27.50 per person, per 6 hour day, for any occupation (in addition to the minimum annual payment of £500)
Short Duration Claim – £35 per person, per day, providing that the person attending is in a construction occupation
- Companies who have submitted a levy return and paid the resulting levy on time, will qualify for a supplementary bonus of 25% of the grant, paid automatically with each claim.

To Book

Please complete the information below and **fax back to Janice Graham-Wilson on 01767 651550.**

Please reserve the following places on the **Scaffold Safety Inspection** course. I have read and agree to the cancellations policy outlined below.

Course date	Close date	Number of places
25 & 25 March 2010	11 March 2010	

Name: Signed:

Company:

TERMS & CONDITIONS

Cancellations made more than 21 days prior to the course start date – no charge; cancellations made between 14 – 21 days prior to the start date – 50%*; cancellations made less than 14 days before the course start date –100%* (* Unless the place can be filled, in which case there will be no charge). Bookings can be made after the closing date, but the full charge will be made to the company for each place, with no opportunity for cancellation without incurring the full cost. If, for any reason beyond our control, one of the training providers cancels or postpones all or any part of a course, the Group will not be liable for any costs incurred by the client as a result of the cancellation or postponement. Where possible, a mutually agreeable date will be arranged to run or complete the course.

Scaffold Safety Inspection

Further Information

Course Aims

To enable the delegates to be fully aware of the various types of scaffold, their uses and construction, faults most commonly encountered, and to carry out statutory inspections and completion of reports.

By the end of the course delegates will be able to:

- Understand the requirements of the relevant legislation, British Standards Code of Practice BS5973 and HSE recommendations for inspecting scaffold systems
- Identify the safe working loads for working platforms
- Differentiate between various scaffold systems and for what purpose they should be used
- Adopt a safe working practice for the use of ladders
- Correctly select and use fall arrest equipment during scaffold erection
- Carry out statutory inspections of all types of scaffolds

Who Should Attend

Engineers, supervisors, operatives, or any person who erects, dismantles or inspects steel tube and fitting scaffolds and aluminium access towers as part of their working duties.

Course Content

The course covers:

- Applicable legislation, British Standards Code of Practice BS5973 and HSE recommendations
- Working platforms and their safe working loads
- Scaffold systems including independent tied scaffolds and system.
- Safe use of ladders
- Scaffold erection to include the correct use and application of fall arrest equipment during scaffold erection
- The inspection of all types of scaffold (independent, putlog, birdcage and static)
- Statutory Inspections and completion of reports also incorporating handover certificates and method statements

By the end of the course delegates will be able to:

- Understand the requirements of the relevant legislation, British Standards Code of Practice BS5973 and HSE recommendations for inspecting scaffold systems
- Identify the safe working loads for working platforms
- Differentiate between various scaffold systems and for what purpose they should be used
- Adopt a safe working practice for the use of ladders
- Correctly select and use fall arrest equipment during scaffold erection
- Carry out statutory inspections of all types of scaffolds

Additional Information

Delegates will receive a certificate and ID card – delegates if need to supply **2 passport photos** on the day of training for production of these ID cards.

Delegates should provide their own personal protective clothing, including:

- safety helmets
- protective gloves
- safety footwear
