

Workshop Booking Form

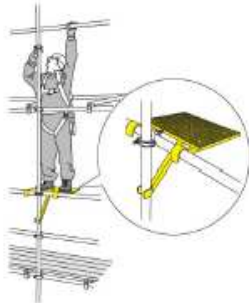

SG4:10 Preventing Falls in Scaffolding

Dates: 03 December 2010
11 February 2011

Time: TBA – half-day pm

Venue: Safety & Access Ltd, Nottingham Dabell Avenue, Blenheim Industrial Estate, Bulwell, Nottingham, NG6 8WA

Cost (per person): £60 + VAT

Additional Information

This half-day course is being run in response to new guidance from the National Access & Scaffolding Confederation (NASC) SG4:10 "Preventing Falls in Scaffolding". The SG4:10 - 'Preventing Falls in Scaffolding' - will see more emphasis on the creation of a 'Safe Zone' by scaffolders covering a variety of safe methods utilising "Collective Protection Measures". This revision will also see the removal of the practice of the 'unprotected traversing element' from the tunnelling principle.

The NASC recognise that personal fall arrest equipment will always need to be used by scaffolders and for certain applications this will remain the primary method of protection. It has to be recognised that initial investment and increased future overheads are major factors to be taken into consideration by Scaffolding Contractors.

To Book

This is an open course, but places are limited. To book please complete the information below and fax back to Janice Graham-Wilson on 01767 651550, or email Janice nctg@notify.co.uk

Please reserve the following places on the **SG4:10 Preventing Falls in Scaffolding** course. I have read and agree to the cancellations policy outlined below.

TERMS & CONDITIONS

Cancellations made more than 21 days prior to the course start date – no charge; cancellations made between 14 – 21 days prior to the start date – 50%*; cancellations made less than 14 days before the course start date –100%* (* Unless the place can be filled, in which case there will be no charge). Bookings can be made after the closing date, but the full charge will be made to the company for each place, with no opportunity for cancellation without incurring the full cost. If, for any reason beyond our control, one of the training providers cancels or postpones all or any part of a course, the Group will not be liable for any costs incurred by the client as a result of the cancellation or postponement. Where possible, a mutually agreeable date will be arranged to run or complete the course.

SG4:10 Preventing Falls in Scaffolding Further Information

Course Aims

To give delegates the knowledge to enable them to understand the requirements of the new NASC Guidance Documents and the practical application of the Scaffold Step. To deliver the NASC approved Toolbox Talk on TG20:08 and to ensure that delegates understand the broader issues of TG20: 08 and the requirements for design input for non standard scaffolds.

Who Should Attend

Directors, managers, supervisors, safety advisers, scaffolders and anyone with a responsibility for the management of collective fall prevention using scaffold step within scaffolding operations and for the implementation of NASC Technical Guide TG20:08 (Good Practice for Scaffolding with Tube and Fittings)

Course Content

- Overview of the Work at Height Regulations and forthcoming SG4; 10
- SG4 Appendix A – Collective Fall Prevention Systems in Scaffolding
- Current practical applications within the scaffolding industry
- Overview of available technology
- Video of Step System
- Overview of TG20:08 and issue of NASC TG20:08 Toolbox Talk document
- Presentation of safe working system of Scaffold Step
- Practical instruction and use of the Scaffold Step
- **Certification:** Safety and Access Ltd Certificate of training
